RE: **Grant Application for Flood Protection Corridor Program**
Reclamation District 2107 Floodway Protection, Eco-Restoration and
Agricultural Preservation Project

Please accept the attached application for Grant Funds under the Flood Protection Corridor Program. As the Project Manager for the sponsoring agency (Reclamation District 2107) for the subject application, I am pleased to submit this application. The format of the application includes the following documents:

- In addition, an electronic version of these documents has been included in the attached CD. I want to specifically thank Bob Pedlar, Senior Engineer with the Department of Water Resources Bay-Delta Office for his assistance in preparing this application. It would not have been possible to complete it without his assistance. I would also like to note that the resources available to a small Reclamation District are limited, and the effort to preparing a complex application like this one is extensive. If there is any additional information needed, please call me and we will do our best to provide it. I can be reached at (209) 234-1500.

Robert Brown, Trustee, Reclamation District 2107
